Detailed Project Description and Justification:

Gastineau Human Services operates the only CRC (halfway house) in the region. This C.I.P. will repair their 40-year old residential units to extend their useful life for the state. They will replace the worn out floor coverings with more durable laminate flooring in the living spaces as well as new tile in the bathrooms and kitchens. They will replace the hollow core interior doors with new solid core doors as a fire safety precaution. Kitchen countertops & cabinets as well as bathroom countertops are in need of replacement; and several appliances are also in need of replacement. The appliances in the units are upwards of 15-20 years olds. Several of the refrigerators are not functioning properly causing food to spoil and producing a health safety hazard. There are also safety and sanitation concerns with the age of the kitchen stoves and sinks.

Gastineau Human Services (GHS) is a non-profit organization whose mission is to initiate, foster, and operate programs which will alleviate and prevent alcoholism and other drug abuse. GHS operates residential programs which provide treatment, care, and rehabilitation to individuals who are offenders, recovering addicts, physically or mentally handicapped. Through their programs they provide additional services to their clients such as life skills training, education, and substance abuse treatment for individuals and their families.

Project Timeline:

Maintenance and equipment projects will begin immediately on receipt of funding.

In operation since 1965, Gastineau Human Services (GHS) is a non-profit organization whose mission has been to initiate, foster, and operate programs which will alleviate and prevent alcoholism and other drug abuse. GHS operates residential as well as outpatient substance abuse treatment programs which provide treatment, care, and rehabilitation primarily to individuals who are offenders, recovering addicts, physically or mentally handicapped. Through our programs we provide additional services to our clients such as life skills training, education, and substance abuse treatment to individuals and their families.

Our goal with this capital grant is to upgrade 40-year old residential units by addressing interior damage due to wear and tear common with buildings of this age.

Kitchen countertops & cabinets as well as bathroom countertops are in need of replacement; and several appliances are in need of replacement.

We plan to replace the worn out floor coverings with laminate flooring in the living spaces as well as new tile in the bathrooms and kitchens. We plan to replace the interior doors with new ones.
